

Supported Networks in the US – All Channels

The MutualMobile product supports the Tier 1 carriers in the U.S., including:

- AT&T®
- Verizon®
- Sprint®
- T-Mobile®

MutualMobile’s support for non-Tier 1 carriers depends on the contractual agreement between the SMS gateway provider (aggregator) and the individual carrier.

Supported Operating Systems, Browsers and Networks

The following statements outline the scope of MutualMobile’s general optimization approach. Phones outside the following guidelines have not been selected for testing. The phones listed below are tested and guaranteed for optimization with MutualMobile. There is no guarantee of optimization for phones not included in this list.

Operating System	Min OS Version Support	Max OS Version Support	Hardware Requirements	Channel Support
Android	Android version 4.1	All later major version updates are supported; for example, 4.1, 4.2, 5.0, 5.1, 6.0	Remote Deposit Capture support requires a camera of at least two mega-pixels in resolution. Medium (mdpi) screen densities or higher are supported. Low (ldpi) screen densities are no longer supported.	Android Application Push
iOS - iPhone	iOS version 7.0	All later major version updates are supported; for example, 7.1, 8.0, 8.1, 8.2, 8.3, 8.4, 9.0 Beta releases of iOS will not be	None	iPhone Application Push

Updated January 2016

		supported until they are publicly released.		
iOS - iPad	iOS version 7.0	All later major version updates are supported; for example, 7.1, 8.0, 8.1, 8.2, 8.3, 8.4, 9.0 Beta releases of iOS will not be supported until they are publicly released.	None	iPhone Application Push

Note: MutualMobile Business users who have phones running iOS 6 or Android 2.3 or 4.0 will **not** be able to download MutualMobile Business Feature Pack 1. These users will be able to run their existing version until February 4, 2016.
